To whom it may concern:

This is a letter of recommendation with regard Agnieszka Drzaszcz and her interpretation abilities in the field of the public presentation and introduction of touring international musicians to domestic audiences.

Ms. Drzaszcz has proven a high level of ability in interpreting and communicating the aims and aspirations of musical ensembles at concert performance and musical workshop events. Not only does Ms. Drzaszcz convey the necessary formality and gratitude required at such events, but she also recognizes the opportunity to translate words of informality and humour to help bond musical groups and their audiences, whether in the introductory and post-concert speeches.

We have successfully used the services of Ms. Drzaszcz on several occasions and would highly recommend her for similar such opportunities.

Please feel free to contact us for any further information.
