28.12.2013

Dear Agnieszka,

I participated as one of the foreign speakers at the international seminar on 24 and 25 October 2013 at Lodz University organised by professor Radoslaw Ignatowski. We- the other foreign speakers which I happen to know well and myself- found the translations that you and your colleague provided remarkably good. It was even more impressive since it concerned specialised topics of accounting and financial reporting. Working myself in Brussels we quite often have to listen to translations and I believe therefore that I am in a position to make a good assessment of the quality of your translations.

With my best wishes for 2014.
